

Steps for 3rd Circle in W11 Assignment - It's a Trap!

Steps for creating a circle that opens and closes

1. Create a semi-circle and add it to the center of the third square.
2. Color it dark red.
3. For the left half of the circle, rotate the semi-circle -90 degrees.
4. With animation and keyframes, move the left semi-circle to the left and then back again.
5. For the right half of the circle, rotate the semi-circle 90 degrees.
6. With animation and keyframes, move the right semi-circle to the right and then back again.
