

Photoshop Worksheet

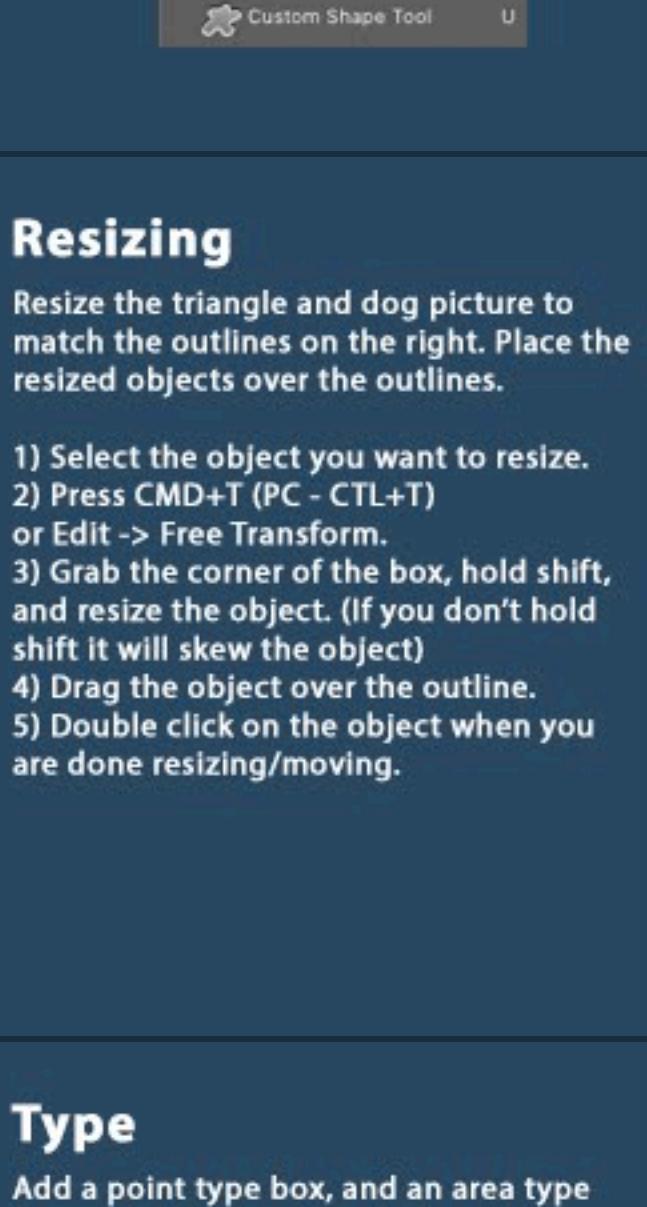

Order Layers

Move the layers to rearrange the order of the images to the right to match the image below.

Name Layers

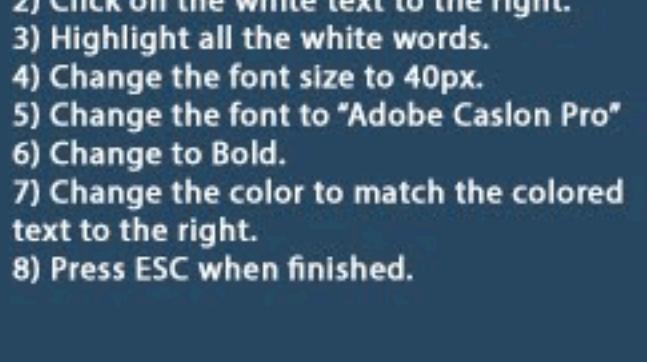

Name the four image layers to match the associated image (chains, bricks, waves, leaves). Take a screen shot of the layers panel and paste/size it to the right of this text.

Move Tool - Auto-Select

Move the images from the above activity over the associated box in this activity. (The picture of leaves should be placed over the box with the label "leaves").

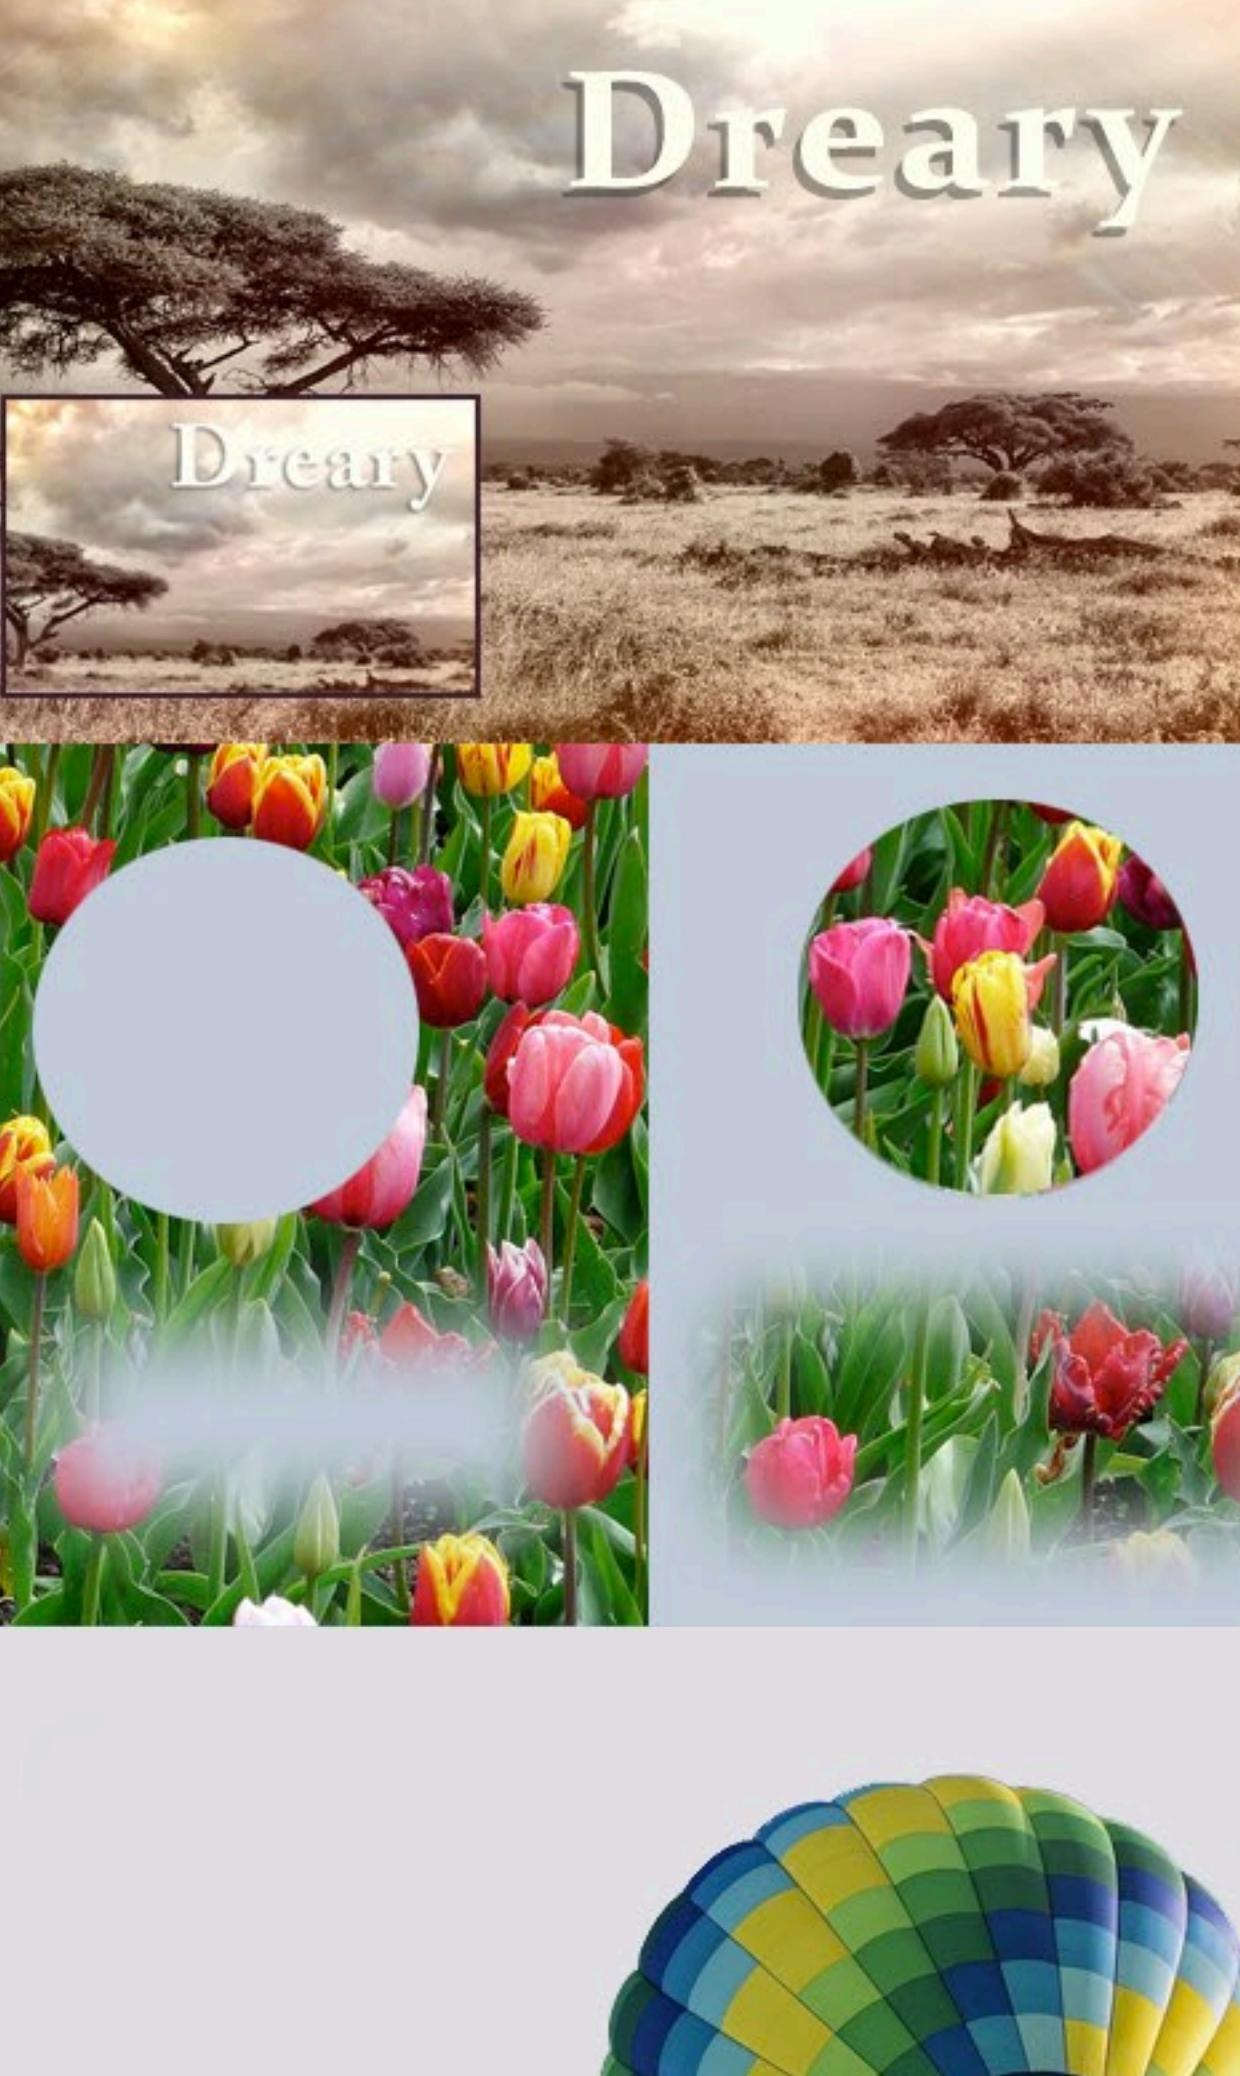

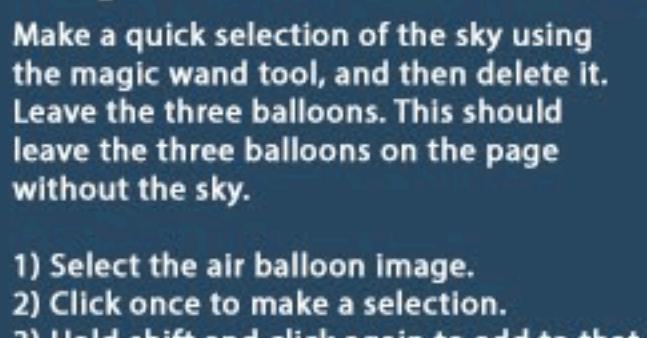

- 1) Open Window -> Layers (F7)
- 2) Select Move Tool (V)
- 3) Check Auto-Select box
- 4) Uncheck image layers
- 5) Click on the images and drag them

Move Tool - Folders

Move the shapes from the left to the outlines on the right. This can be more difficult if you don't have your settings correct, since these shapes are inside a folder.

- 1) Select Move Tool (V)
- 2) Make sure "Layer" is chosen next to the "Auto-Select".
- 3) Click on the shape and drag it.
- 4) Repeat for each shape

Shape Tools

Use the shape tools to create matching shapes to the ones found to the right.

Press and hold the main shape tool icon to have a drop down menu with other options appear.

Resizing

Resize the triangle and dog picture to match the outlines on the right. Place the resized objects over the outlines.

- 1) Select the object you want to resize.
- 2) Press CMD+T (PC - CTL+T) or Edit -> Free Transform.
- 3) Grab the corner of the box, hold shift, and resize the object. (If you don't hold shift it will skew the object)
- 4) Drag the object over the outline.
- 5) Double click on the object when you are done resizing/moving.

Type

Add a point type box, and an area type box under the headings to the right.

Point Type Instructions
1) Select type tool (T).
2) Press next to the "x".
3) Type "The Quick Brown Fox Jumped Over the Lazy Dog".
4) Press ESC when finished.

Area Type Instructions
1) Select type tool (T)
2) Press, hold, and drag from the top left corner of the dashed outline. Drag the box to match the dashed outline.
3) Type "The Quick Brown Fox Jumped Over the Lazy Dog".
4) Press ESC when finished.

Marquee Selections

Use the marquee selection tools to move sections of the image to the right. shapes to the ones found to the right.

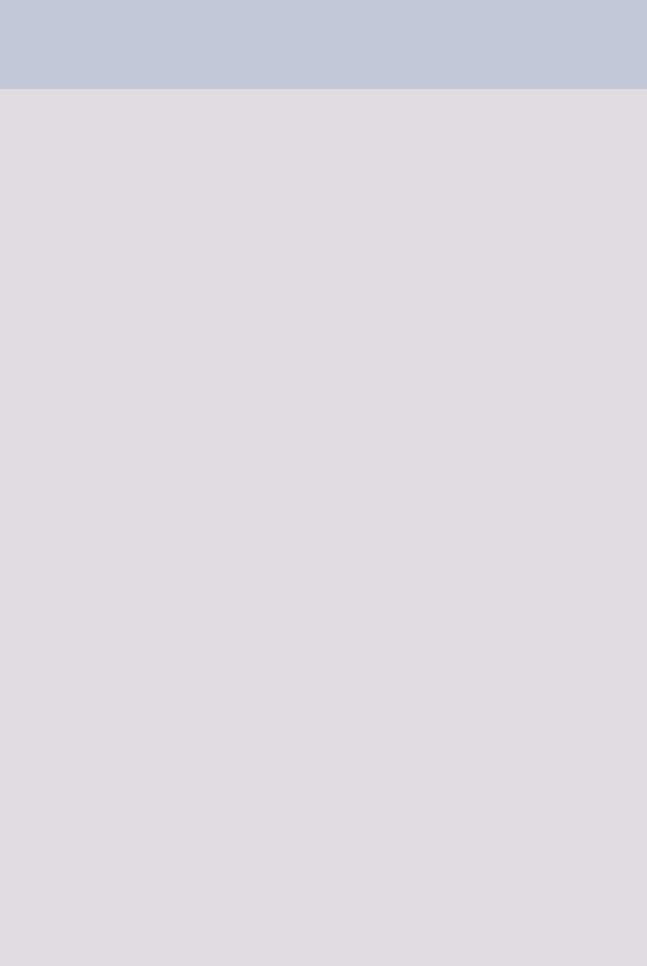

- 1) Select the marquee tool.
- 2) Draw a shape that resembles the outlined shapes to the right (size, shape, feather).
- 3) Select the Move Tool (V). Then drag the selection over the outline.

Magic Wand - Selection

Make a quick selection of the sky using the magic wand tool, and then delete it. Leave the three balloons. This should leave the three balloons on the page without the sky.

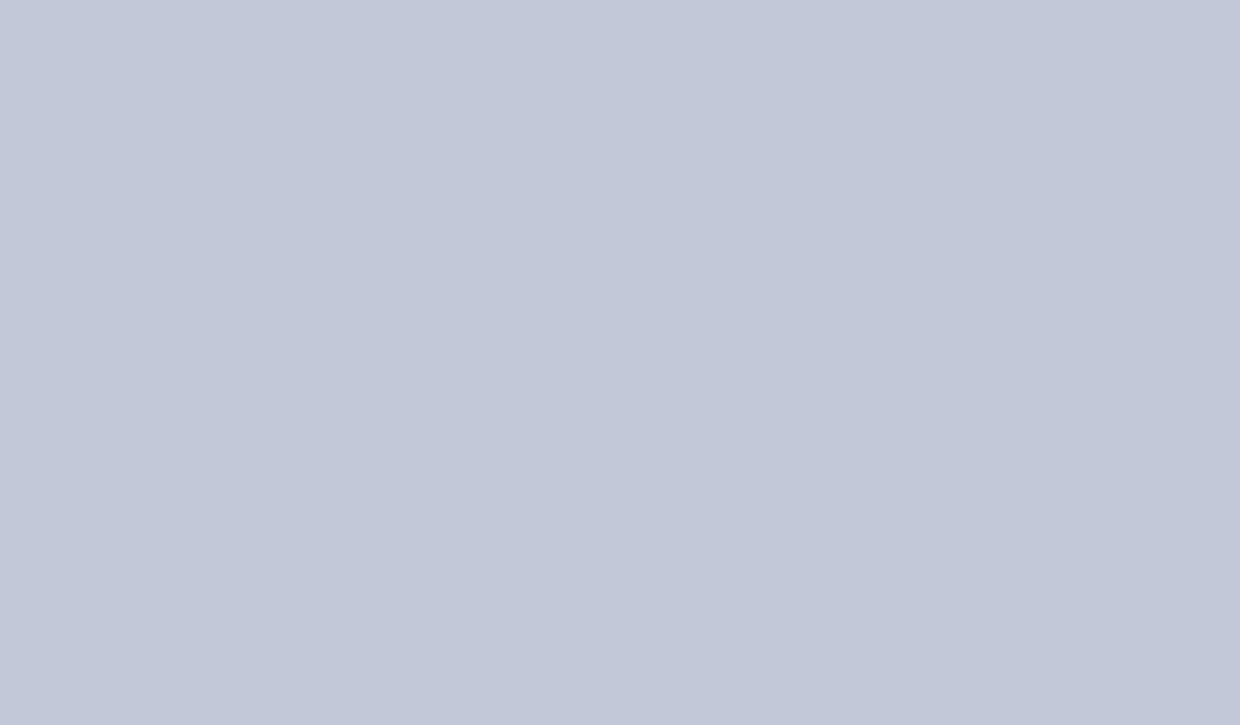

- 1) Select the air balloon image.
- 2) Click once to make a selection.
- 3) Hold shift and click again to add to that selection.
- 4) Press the delete key to delete the selected portion of the image.

Content-Aware Fill

Use content-aware fill to remove the woman from the image.

- 1) Select the image.
- 2) Make a selection around the woman.
- 3) Choose Edit -> Fill.
- 4) Choose Content-Aware Fill from the drop down menu, and press OK.

Spot Healing Brush

Remove the birthmarks from the girl's cheek and chin using the spot healing brush tool.

- 1) Select the Spot Healing Brush.
- 2) Set the size and hardness.
- 3) Click over the desired spot.

Clone Stamp

Create new bricks to go over the mans shirt using the Clone Stamp tool.

- 1) Select the image.
- 2) Make a selection around the man's head and collar, and then inverse it.
- 3) Sample a section of the image by holding down option and clicking.
- 4) Start painting new bricks in the desired locations.

Masking

Create a layer mask to the Rainy Window image and hide/reveal portions of it.

- 1) Select the Rainy Window image layer.
- 2) Press CMD+M (PC - CTL+M) or Edit -> Free Transform.
- 3) Hold shift and resize the image.
- 4) Paint black to hide portions of the Rainy Window image, paint white to bring back/reveal portions of the image.

Final Activity

Using the images provided in the "Images for Ad" folder, recreate the ad see below. Create the ad over the rectangle labeled "Make Your Ad Here."

Utilize the skills you have learned in this worksheet to accomplish this.

Don't recreate the text watermark.
